1" = 20'

Project 1350-4

- Notes:**
1. Lots are 5' by 10' and 5' by 5'.
  2. Granite posts were placed as shown outside the 5' by 10' lots on Sections 1-8 on Oct. 3, 2006. A nail in the ground next to the granite post marks the exact lot center. Between the granite posts, the lots are to be located by measuring a straight line between the posts. The distances are horizontal, so on sloping land there may appear to be 2-3 inches of excess land between the nails.
