

Town of Plainfield
PO Box 380
Meriden, NH 03770
David H Lersch
Plainfield Building Inspector

Plainfield uses basic wind speed value of 115mph. This value is the same for the town of Lebanon, which is about eight miles north of us. This value should be adjusted based on Table R301.2.1.5.1 for basic wind modification for topographical wind effect in the IRC 2015 version.

The snow load is 90lbs/sq/ft at 1300', add or subtract 2.1lbs/sqft for each 100 foot elevaton.

A handwritten signature in cursive script, which appears to read "David H Lersch".
