Re: Building Permit for two bathrooms in my garage

This letter is to inform the Town of Plainfield that the finished space above my garage is not a separate dwelling unit (apartment). There is finished space above the garage and I would like to have two bathrooms in the building. One downstairs for shop work and the other upstairs for my finished office/mancave space.

The new bathrooms will be connected to my house's existing septic system. There are no bedrooms in the space above the garage.

Signed

David Langford
