07-29-21 I received a call yesterday, couldn't understand all of it but it was for True Road and electrical under road. There isn't any permits for True Road and had no telephone number to call as it was voice mail. Went by today to see what was going on. Met Robbie Williams digging a trench. He said the electrician wanted to know if he needed a permit and described what was going on. I remember in the spring I had a call about going under road for electrical. Robbie will let electrician know he needs a permit. They are going from pole to a transformer across the road, then to house. Also moving generator and propane tank.
