07-02-20 I talked to owner about sunroom. He had a patio removed last year and had Dan LaPan pour a concrete slab. He said Dan did a good job and did install rebar.

11-02-20 I inspected the framing for the sun room addition, looked okay. He said the slab had blue foam underneath and the roof will have 6" of sprayed foam on top of roof. It will be next year before he gets glass installed and I told him to make sure to renew as permit good for a year.
