Plainfield Residents

The Selectboard is pleased to make available to the community a refurbished map of the Town of Plainfield based on the original created by Vernon Hood of Plainfield Village. Many of you have owned or used a version of this map, which has been updated twice by the Conservation Commission with support from the Huntly N. Spaulding charitable Trust. This latest version represents an entire remake of the map by local artist David Smith. It includes numerous road name changes that went into effect as part of the 1995 Street Addressing project. In addition, several new features have been added to the map.

The Selectboard has decided to earmark all proceeds from the sale of the new map for the Service Memorial Project. The Selectboard feels strongly that Plainfield should have a place to honor all those that have provided service to our nation. The site for the memorial has been chosen in Plainfield Village adjacent to the Plain Cemetery. The design details are completed thanks to the efforts of the town's Veteran's Memorial Committee. Please review the enclosed brochure for more details about the memorial.

Any person or organization that donates \$1,000 or more to the project will receive a signed, numbered 21"X32" framed print of the map. The largest donor will receive print number 1.

Donors, \$500 to \$999, will be entered into a raffle for six 18" X 24" framed copies of the map. All other donors at this level will receiving a small copy suitable for framing.

Donors of \$100 or more will each receive a small copy of the map suitable for framing.

Once this initial offering is complete, lesser quality copies of the map will be available at the town office and libraries for \$5/\$10 each and again, all proceeds will go to the memorial project.

Please consider participating in this important capital campaign. We sincerely hope to be able to construct the memorial in the summer of 2008.

Mark H. Wilder, Chairman
