PLAINFIELD RESIDENTS

The Planning Board, in accordance with RSA 231, will hold scenic road hearing on **Monday November 6th 2017** starting at **7:00pm at the Meriden Town Hall 110 Main Street**. The hearing concerns a request by Liberty Utilities to perform routine tree trimming line maintenance on the following Plainfield scenic roads: Chellis Road (1984) , Colby Hill Rd (1972), Grantham Mt. Road (1977), Harriman Road (1978) and Whitaker (1977) . Information outlining the requested road side trimming is available online at www.plainfieldnh.org/planning.html and at the town office at 110 Main Street Meriden village. For those that wish to attend, a site visit to the locations will take place the day of the hearing at **3:00pm starting at the Meriden Town Hall, 110 Main Street Meriden Village**. All are welcome.

PLAINFIELD PLANNING BOARD

September 14, 2017

Town of Plainfield
Planning Board
PO Box 380
Meriden, NH 03770

Dear Planning Board:

Liberty Utilities will be performing scheduled vegetation management for the safety and reliability of the electric distribution system on Chellis Rd., Colby Hill Rd., Grantham Mountain Rd., Harriman Rd. and Whitaker Rd. which are designated scenic roads in the Town of Plainfield. The details for the proposed work are enclosed.

The planned work can be categorized as follows: any and all trees over the 15 inch circumference limit will be pruned to remove dead/dying, weak and structurally poor limbs to conform to the clearances specified by the New Hampshire Public Utilities Commission:

Puc 307.10 Tree-Pruning Standards.

(a) With the land-owner's consent, utilities shall prune trees adjacent to all distribution circuits to the following minimum clearances on no more than a 5 year cycle:

- (1) 10 feet below the conductors;
- (2) 8 feet to the side of the nearest conductor; and
- (3) 15 feet above the conductors, at time of pruning.

(b) Utilities shall implement measures such as mid-cycle reviews to identify and mitigate elevated risk from tree exposure on circuits or sections of circuits that are significantly and/or continually experiencing tree-related interruptions, where it is practical to do so.

(c) Utilities shall not be required to prune to the clearance standards specified in (a) of this section where:

- (1) The land-owner has refused or restricted permission to prune;
- (2) A municipality or other local governing body, by ordinance or other official means, has refused or restricted permission to prune; or
- (3) Pruning to the standards specified in subpart (a) would be detrimental to the health of the tree, in which the utility shall adhere to the guidelines provided in ANSI A300 Part 1– 2008 Edition, available as noted in Appendix B.

Trees under the 15 inch circumference limit and brush capable of growing into the energized conductors will be cut with the landowner's consent.

Trees to be removed, based on risk assessment performed by Liberty Utilities and qualified foresters from Environmental Consultants, Inc. (ECI) have been marked with red or pink flagging stapled to the trees. Removals are noted in the enclosed details as "Rmv and Diameter Class" by land type Unmaintained (UM), Roadside R and (M) Maintained.

Liberty Utilities also requests approval for trimming related items found in a recent audit of work approved and completed in 2015, along with deferred tree removals that were also approved on River Rd, Black Hill Rd. and Pierce Rd.. Liberty identifies and marks more risk trees than can be removed annually and therefor prioritizes and defers removals based on priority.

Please notify as to the date, time and place of the required public hearing at the earliest possible convenience after October 5th for me to present the project for approval.

Should you have any questions or comments please do not hesitate to contact me at 603-306-8211 or jeff.carney@libertyutilities.com.

Thank you.

Sincerely,

Jeffrey M. Carney, ISA Certified Arborist NE6299AU
Program Manager Vegetation and Inspections
