PLAINFIELD RESIDENTS

The Planning Board, in accordance with RSA 231, will hold scenic road hearing on **Monday November 2nd 2020** starting at **7:00pm at the Meriden Town Hall 110 Main Street/Via Zoom**. The hearing concerns a request by Liberty Utilities to perform routine tree trimming line maintenance on the following Plainfield scenic roads: Black Hill Road (1982), Pierce Rd (1984) and River Road (1972). Information on how to join the meeting and outlining the requested road side trimming is available online at www.plainfieldnh.org/planning.html and at the town office at 110 Main Street Meriden village. For those that wish to attend, a site visit to the locations will take place the day of the hearing **at 3:00pm starting at the Plainfield Town Hall, 1079 Route 12A Plainfield**. All are welcome, masks required.

PLAINFIELD PLANNING BOARD

September 23rd, 2020

Town of Plainfield
Planning Board
PO Box 380
Meriden, NH 03770

Dear Planning Board:

Liberty Utilities will be performing scheduled vegetation management for the safety and reliability of the following scenic roads:

Plainfield	Black Hill Rd
Plainfield	Pierce Rd
Plainfield	River Rd

The details for all the tree work (complete or planned) will follow. The work can be categorized as follows:

Any and all trees over the 15 inch circumference limit will be pruned to remove dead/dying, weak and structurally poor limbs to conform to the clearances specified by the New Hampshire Public Utilities Commission:

Puc 307.10 Tree-Pruning Standards.

- a) With the land-owner's consent, utilities shall prune trees adjacent to all distribution circuits to the following minimum clearances on no more than a 5 year cycle:
 - 1) 10 feet below the conductors;
 - 2) 8 feet to the side of the nearest conductor; and
 - 3) 15 feet above the conductors, at time of pruning.
- b) Utilities shall implement measures such as mid-cycle reviews to identify and mitigate elevated risk from tree exposure on circuits or sections of circuits that are significantly and/or continually experiencing tree-related interruptions, where it is practical to do so.

- c) Utilities shall not be required to prune to the clearance standards specified in (a) of this section where:
- 1) The land-owner has refused or restricted permission to prune;
 - 2) A municipality or other local governing body, by ordinance or other official means, has refused or restricted permission to prune; or
 - 3) Pruning to the standards specified in subpart (a) would be detrimental to the health of the tree, in which the utility shall adhere to the guidelines provided in ANSI A300 Part 1–2008 Edition, available as noted in Appendix B.

Trees under the 15 inch circumference limit and brush capable of growing into the energized conductors will be cut with the landowner's consent.

Trees to be removed, based on clearance needs and risk assessment performed by Liberty Utilities and qualified foresters from Environmental Consultants, Inc. (ECI) and Chippers Inc., may have been marked with red or pink flagging stapled to the trees.

The newer PUC 307.10 Standards requires our clearance corridor to be wider than in the past. This has required more vegetation work and tree removals and as a result, trees planned for removal are at this time at an inventory state. The removals will be performed as resources are available and will be prioritized by relative risk to other trees found in the inventory process. We are currently deferring tree removals for budget constraints. We request the ability to remove these trees prior to next cycle if funding is allocated.

Please keep us on the list for the next available meeting, such that we may attend and present at the required public hearing to present the project for approval.

Should you have any questions or comments please do not hesitate to contact me at 603-306-8270 or Heather.Green@libertyutilities.com.

Thank you.

Sincerely,
