Resolved: We the voters of Plainfield believe in a New Hampshire that is fiscally responsible and locally controlled -- but fair. The property tax has become unfair. "The Pledge" against considering any alternative broad-based taxes perpetuates this unfair and burdensome property tax. We urge our elected officials to reject "The Pledge", have an informed discussion covering all options, and adopt a revenue system that retains the good aspects of fiscal responsibility and local control -- but relieves the unfair local property tax burden. (This article is by petition.)

ARTICLE 19. To see if the Town will vote to approve the following resolution to be forwarded to our elected officials at the local and state levels:

Resolved: We the voters of Plainfield believe that relief must be provided to our most heavily burdened taxpayers while supporting an excellent education for our children in a fiscally responsible way. While we hope that the State of NH will begin to address its education funding responsibilities, we also believe that towns should be able to enlist the creativity of their residents to resolve intra-town tax inequities in ways that the state currently limits. Toward that end, we urge our elected officials to pass enabling legislation that expands the opportunities for towns to raise revenue as their citizens see fit. (This article is by petition.)

ARTICLE 20. To see if the town will go on record in support of effective actions by the President and the Congress to address the issue of climate change which is increasingly harmful to the environment and economy of New Hampshire and to the future well being of the people of Plainfield.

These actions include:

1. Establishment of a national program requiring reductions of U.S. greenhouse gas emissions while protecting the U.S. economy.
2. Creation of a major national research initiative to foster rapid development of sustainable energy technologies thereby stimulating new jobs and investment.

In addition, the town of Plainfield encourages New Hampshire citizens to work for emission reductions within their communities, and we ask our selectmen to consider the appointment of a voluntary energy committee to recommend local steps to save energy and reduce emissions.

The record of the vote on this article shall be transmitted to the New Hampshire Congressional Delegation, to the President of the United States, and to declared candidates for those offices. (This article is by petition.)

ARTICLE 21. To transact any other business that may legally come before this meeting.
